

# 1985-Present

## Across

3. What is one scientific struggle from 1985 - the present?
5. Why did NASA's accident occur?
6. What did NASA's successful discovery lead to the potential discovery of?
7. In what year did NASA make a life changing discovery involving life on other planets?
8. What year was NASA's set-back?
9. On which mission did the accident occur?

## Word Bank

Mars Meteorite  
complexcarbonbased  
1986  
Knowledge

shuttle explosion  
bacteria  
tenth

1996  
Life on other planets  
weather change

10. Scientists relied on their prior knowledge of \_\_\_\_\_ when examining the meteorite.

## Down

1. "The meteorite had \_\_\_\_\_ - \_\_\_\_\_ molecules similar to ones found on earth that are a key factor in living organisms."
2. What is one scientific triumph from 1985 - the present?
4. Having \_\_\_\_\_ of previous theories about weather change and space shuttles may have saved NASA's shuttle.
