

6. General Principles and processes of isolation of elements

Across

5. Copper is extracted from
 10. Heating of ore in excess of air
 11. Extraction of metal by passing electricity
 13. The other word for zone refining is _____
 15. Chemical substance added to the ore to remove gangue

Down

1. Extracting metal from aqueous solutions
 2. Removal of gangue from ore
 3. Metal obtained profitably
 4. Extracting soluble material from insoluble solid
 6. Heating of ore in absence of air

7. Ore heated at high temperature
 8. Waste product formed during extraction of metals
 9. Metal extracted in pure form
 12. Substance obtained by mining
 14. Extraction of impure molten metal from ore
