

# 9 Weeks Exam

## Across

2. first "movement" of an earthquake  
 5. directly above the focus  
 9. state of the outer core  
 12. tool used to measure earthquakes  
 13. rock continental crust is made from  
 15. happens inside the mantle

17. forms at a convergent boundary  
 18. crust moving into the mantle  
 19. forms at a divergent boundary  
 20. part of the crust that subducts

## Down

1. outermost layer of the earth  
 3. middle layer of earth (LAME)

4. earthquakes  
 6. spews out of a volcano  
 7. theory saying that plates are in motion  
 8. occurs when two plates move away from each other  
 10. super-continent (all continents joined together)  
 11. occurs when two plates collide  
 14. contents of both cores  
 16. solid core
