

# Acid and Bases

**Across**

- 2. An acid with a low PH level
- 8. A substance between 7-14 on the PH scale
- 9. A substance appearing between 0-7 on the PH scale
- 10. The scale used to measure how acidic or basic a substance is

- 11. A base with a high PH level
- 12. A solution with a PH of 7

**Down**

- 1. A salt of Carbonic acid
- 3. A base with a low PH level
- 4. An Acid with a high PH level

- 5. A solution that is water solvent
- 6. The solution made when a hydrogen ion is added to a base
- 7. What is left over when an acid has donated a proton during a chemical reaction
