

# Adaptations for Gas Exchange

## Across

4. Where does gas exchange take place?
6. The walls are \_\_\_\_\_
7. What are alveoli?
9. As living organisms get bigger, their surface area: volume ratio gets \_\_\_\_\_
10. What do you need a sufficient supply of?

## Down

1. What shape is your alveoli?
2. What is easier because of the thickness of the walls?
3. What are alveoli formed in?
5. What things have fish adapted for gas exchange?
8. Alveoli make the lungs have a large \_\_\_\_\_
