Adaptive Hybrid #2

Across

- 1. temporary induced loss of sensation or awareness
- 3. used as an artificial body part
- **7.** separates sterile field from non-sterile environment
- ${f 11.}$ surgical procedure designed to reduce proximal femoral fractures
- 13. shields against radiation exposure
- 14. worn in all areas of OR to contain hair
- ${\bf 19.}$ any disease that affects a joint
- ${f 20.}$ protective layer worn by surgical team during surgery
- **21.** provides intraoperative imaging in a variety of examinations
- **25.** rigid endoscope inserted through an incision for viewing inside the abdominal cavity
- 28. sterile state where living pathogens are absent
- ${\bf 30.}$ replacement of hip with artificial joint
- 31. free from bacteria or other living microorganisms
- **32.** covering for the face to prevent inhalation of dangerous substances

- 34. special table used for orthopedic procedures
- ${\bf 35.}$ specially trained to perform surgical procedures
- ${\bf 36.}$ position of c-arm that gives the least exposure to operator
- ${\bf 37.}$ area between draped patient and instrument table in OR
- ${\bf 38.}$ surgical procedure to remove bony fragments from spine
- ${\bf 39.}$ narrow screw designed to enter and fix cortical bone
- ${\bf 40.}$ device using weights and pulley's to align or immobilize a limb or bone

Down

- 2. an artificial regulator for cardiac rate and rhythm
- $\ensuremath{\textbf{4.}}$ worn on the hands to protect against bodily fluids
- 5. creation of an artificial joint
- 6. not free from germs or microorganisms
- ${\bf 8.}$ person responsible for integrity of sterile field in OR
- surgical procedure for removal of the gallbladder
 artificial device to replace a missing body part

- 12. device placed within the medullary cavity to reduce a fracture or stabilize a diseased long bone
- **15.** X-ray examination of the bile ducts, to locate obstructions
- **16.** long rod that is inserted into the femur to repair fractures
- 17. protective covering for shoes in the OR
- **18.** procedure to break up kidney stones or
- calcifications

 22. surgical fusion of one vertebrae to another
- 23. position of c-arm that gives the most exposure to
- **24.** large screw used for internal fixation of proximal femur
- 26. stiffening of a joint by operative means
- ${\bf 27.}\ {\rm surgical}\ {\rm procedure}\ {\rm replacing}\ {\rm the}\ {\rm knee}\ {\rm with}\ {\rm an}\ {\rm artificial}\ {\rm joint}$
- **29.** procedure performed to alleviate pain caused by neural impingement
- ${\bf 33.}$ nurse who monitors and coordinates all activities in the OR
