

Name: _____

Advanced Biology Part 1

Across

- 3. Which step of the scientific method includes forming a hypothesis?
- 7. Which step of the scientific method includes Repeating the process?
- 11. What part of the scientific method would be when someone makes an educated guess on why their car isn't working?
- 12. Which step of the scientific method includes the recording of data?

13. Cushions Cell

- 14. What part of the scientific method would be when someone records facts about why their car isn't working?
- 15. Regulates what enters and leaves the cell.
- 16. Cleans cell

Down

- 1. Controls cell
- 2. What part of the scientific method would be when some one asks why their car isn't working?

4. Which step of the scientific method includes finding research?

- 5. Powerhouse of the cell.
- 6. Which step of the scientific method includes making a conclusion?
- 8. Which step of the scientific method includes testing the hypothesis?
- 9. Which step of the scientific method includes making an observation?
- 10. Provides structure and support.
