

# Algebra Project

## Across

8. easy writing an equation

9. solving systems

10. low and high values

12. points the distance focus on

13. vertical line

14. horizontal line

15. what is the x line called on a graph

## Down

1. highest point

2. steepness of the line

3. containing values of the variable

4. write an equation on a line

5. functions moves a objective at a certain

6. what is the y line called on a graph

7. independent variables x and y

11. plotting answers
