

Name: _____ Date: _____ Period: _____

Algebra Terms

Across

1. A variable that relies on another variable
 6. The number of times the base is multiplied by itself
 10. A number to show a graphs steepness
 12. Another word for x intercepts
 14. The x values of a function
 15. To rewrite an equation in its most basic form

 Range
 Slope
 Dependent variable
 Slope int form

Down

16. A line
 17. point that intercepts y axis
 18. The mathematics of working with variables
 19. Point that intercepts the x axis
 20. The slope and y int of a graph ($y=mx+b$)
 2. The y values of a function
 3. All numbers on a graph

Across

4. Another word for slope
 5. Terms that have the same variable
 7. A point written in (x,y) form
 8. Line of a graphs symmetry
 9. The "u" shaped graph of a quadratic
 11. A number that divides exactly into the number
 13. A letter that represents a quantity
