

Name: _____

Date: _____

Algebra Two Terms

Across

11. quadratic term
12. lowest point in a region
14. function operations ADD
15. two terms
16. linear term
17. quartic
18. growth is _____ than one
20. difference of cubes
21. decay is _____ than one
22. function operations SUBTRACT
24. Uses no variables or exponents and must change the sign of the division

26. three terms

27. half the difference between the maximum and minimum values of the function

Down

1. four terms
2. sum of cubes
3. highest point in a region
4. composition of functions
5. function operations MULTIPLY
6. one complete pattern is a _____
7. Sum of one or more monomial

8. change of base

9. repeats a pattern of y-values (outputs) at regular intervals
10. amplitude formula
13. one term
19. cubic
23. quintic
25. exponent of the variable
