Algebra palluza

Across

- **5.** What is the Avrage set in a data set?
- **7.** Where the graph crosses the y-axis
- 9. What is the middle
- **13.** What are the order of operations
- 15. X values
- **16.** Median of the upper half of the data set
- **17.** Lowest point
- **18.** What are the liked terms that are important when adding and subtracting

- **22.** What are the exponents in a monomial/polynomial
- 23. Median of the lower half of the data set
- **24.** A statement that compares two expressions using less/greater than signs
- 25. Y=mx+b

Down

- **1.** Where the graph crosses the x-axis
- 2. Y values
- 3. A polynomial with two terms
- **4.** What is when two lines intersect at 90 degree angles and their slopes are opposite

- **6.** A polonomial with one term
- **8.** What indicates how many times the base in a power is multiplied
- **10.** What is the median of the upper or lower half of the data set?
- 11. When two lines never intersect and have the same slope
- 12. What is also known as solutions
- **14.** The measure of a lines steepness
- **19.** The value repeated the most in a set of data
- **20.** Ordered pair made up to show a possible relationship
- 21. Highest point in a graph
