

# Alternative Energy Sources by Abigail Sanderson

## Across

6. The Earth's main source of energy

9. preservation, protection, or restoration of the natural environment, natural ecosystems, vegetation, and wildlife.

10. Created by burning wood, waste, and plants

11. This is a renewable form of energy that is powered by moving water

12. The gas that is made by fossil fuels and makes itself into the ozone layer

## Down

1. Energy that splits atoms, creates steam, and turns turbines

2. a mixture of methane and other gases

3. this type of energy cannot be produced as fast as it is used

4. Energy that comes from heat and magma underground

5. Energy produced by the sun

7. A black, rock-like fossil fuel

8. fossil fuel that can be spilled into the ocean
