

An Astronauts Guide To Life

Across

4. A period of physical activity engaged in by an astronaut in space outside a spacecraft

7. A celestial body orbiting the Earth to collect information or for communicating

12. National Aeronautics Space Administration

13. An important assignement

14. A rocket-launched spacecraft used to make repeated journey between the Earth and the Earth's orbit

15. The physical univese beyond the Earth's atmoshere

16. A series of orbiting spacecrafts to investigate the operation of orbiting stations

Down

1. Doing something despite difficulty

2. Robotic manipulation system designed for use in zero gravity

3. The action of undertaking a course of exercise or preparation

5. A person who is trained to travel in a spacecraft

6. The vertical takeoff of a rocket

8. The third planet from the Sun in the Solar System

9. An instance of coming or bringing something to land from the air

10. The envelope of gases surrounding the Earth or another planet.

11. The force that attracts a body toward the center of the Earth or toward any other physical body having mass
