

# Anatomy & Physiology - 1

**Across**

- 4. The watery fluid around the nucleus is the \_\_\_\_\_?
- 7. What is the upper most bone of the arm?
- 9. \_\_\_\_\_ make up the skeletal system.
- 10. What is the largest and strongest bone in the face?
- 12. \_\_\_\_\_ is when cells divide into two identical daughter cells.
- 15. What is the jelly like substance part of the cell?

- 16. What tissue carries messages to and form the brain?
- 17. The cell structure that plays a role in cell reproduction is \_\_\_\_\_?
- 18. How many bones make up the cranium?
- 19. What bone forms the sides and the top of the head?

**Down**

- 1. A \_\_\_\_\_ is the connection between two or more bones.
- 2. What is the hindmost bone of the skull?

- 3. Structures of the body perform a specific function.
- 5. What part of the cell allows soluble substances to enter and leave the cell?
- 6. What is the study of the functions of the body?
- 8. Similar cells together create \_\_\_\_\_?
- 11. The stomach and intestines are part of what system?
- 13. What bone forms the sides of the head near the ear?
- 14. Groups of body organs that act together to perform one or more functions.
