Date: \_\_\_\_\_

# Animal/Plant Cell

## Across

2. Stiff structure outside the cell membrane

4. A fluid inside a cell

7. Produces proteins

10. Stores food, water and waste material

11. Removes harmful substances from a cell

12. Breaks down cellular components

13. Cell division

## Down

1. Protects the inside of a cell

3. Prepares proteins for their jobs

5. Processes energy

6. Uses light and makes food

8. Involved in the production of proteins

9. Directs cell activity

## Word Bank

Nucleus

Ribosome

Golgi Apparatus

Vacuoles

Rough ER

Chloroplast

Cytoplasm

Lysosome

Centriole

Cell membrane

Cell wall

Smooth ER

Mitochondrion
