

Name: _____

Date: _____

Animal Cell

Across

2. Materials move into/out of cell

4. Protein synthesis

7. Contains DNA

9. WW.
Modification/packaging of proteins

10. WW.

Storage/packaging of products

11. Distributes materials

12. Controls Metabolism

13. Carriers/channels

14. Produce ATP

Down

1. Protects Nucleus

3. Removes damaged cells

5. Lipid and carbohydrate synthesis

6. WW.
Isolation/protection

8. Assembles ribosomal units
