

Apparel Vocabulary Review

Across

4. the process in which you restitch the beginning and end to reinforce the regular stitch

7. what colors make orange other than red

10. the process of pulling loops of yarns through other loops to create interlocking rows of stitches.

11. yarns that run crosswise in woven fabric

12. a very strong weave in which the woof yarn is passed over and under one, two, or three warp yarns.

Down

1. used to protect the finger while hand sewing

2. yarns that run lengthwise in woven fabrics ("P"=up&down)

3. the diagonal grain of a fabric.

5. used to measure bust, waist or wrist

6. a knit made with several yarns on flat knitting machines. Multiple yarns are looped together to produce a run-resistant knitted fabric.

8. process in which the needle is left down in the fabric and the foot is lifted and fabric is turned
