

Area and Perimeter

Across

- 2. find the area if L = 13 and W = 13
- 8. Find the side of a square if perimeter is 364
- 9. find the perimeter if L = 23 and w = 23
- 11. Find the perimeter if L = 7 and W = 8
- 12. Find the perimeter if L = 15 and W = 27

- 14. Find the perimeter if L = 12 and W = 12
- 15. Find the side of a square if perimeter is 60

Down

- 1. Find the area if L = 7 and W = 8
- 3. find the area if L = 10 and W = 6
- 4. Find the perimeter if L = 12 and W = 13

- 5. Find perimeter if L = 10 and W = 6
- 6. Find the length if Area = 221 square m and width = 17 m
- 7. find the area if L = 23 and W = 23
- 10. Find the width if Area = 120 square feet and length is 15 feet
- 13. find the area if L = 15 and W = 27
