

Arson vocab puzzle

Across

- 4. A rapid oxidation process with the evolution of light and heat in varying intensities
- 6. The luminous portion of burning gases or vapors
- 9. Carbonaceous material that has been burned and has a blackened appearance
- 11. To draw along with or after
- 13. The room or area where a fire began
- 15. Any subsequent explosion resulting from an initial explosion
- 16. Heat transfer to another body or within a medium, such as a gas or liquid

- 17. An opening for the passage of or dissipation of fluids, such as gases, fumes, and the like
- 18. A small incandescent particle
- 19. The movement of fire from one place to another
- 20. a temperature measured in degrees Kelvin or degrees Rankine by zero is the lowest possible temperature and 273° Kelvin correspond to 0°C and 460° Rankine corresponds to

Down

- 1. Inicialión of combustion by heat without a spark or flame
- 2. A material that yields heat through combustion
- 3. A measurement of energy release rate
- 5. Combustion without flame usually with incandescence and smoke
- 7. an agent often ignitable liquid used to initiate or speed the spread of a fire
- 8. Initial resulting from self heating
- 10. The gas phase of a substance particularly of those that are normally liquids or solids ordinary temperatures
- 12. Any chemical compound, mixture or device the primary purpose of which is to function by explosion
- 14. A form of energy characterized by vibration of molecules and capable of initiating and supporting chemical changes and changes of states
