

Atmospheric Layers

Across

2. In the thermosphere, what is another name for this ship-like object?
4. What is the boundary between the troposphere and stratosphere?
9. What is created when water is vaporized and rises and expands in the atmosphere?
13. What region is also known as between the thermosphere to the mesosphere?
14. What happens in the troposphere which is also known as the actions of "Mother Nature"?
15. What is the farthest layer away from the Earth?

16. What is the phenomenon is known as a natural light display in the sky?
18. What is a more common name for the stratosphere?
19. In the Exosphere, what deflects certain radio waves down to us?
20. What is the middle layer in the atmosphere?

Down

1. What is the boundary between the stratosphere and the mesosphere?
3. What is the layer second closest to the Earth?
5. In the stratosphere, what balloon like object observes weather?

6. What is the second farthest layer away from the Earth?
7. What is the layer closest to Earth?
8. What is the name for the wispy-like object that is formed in the troposphere?
10. What is the boundary between the mesosphere and thermosphere?
11. What does the mesosphere burn which creates "shooting stars"?
12. What usually flies through the stratosphere?
17. What kind of waves are seen in the Ionosphere?
