

Name: _____

Date: _____

Atoms

Across

5. It has a neutral charge

7. The electronic..... of an element is represented by rings around the nucleus

9. Both the proton and the electron have the same electrical

11. Neutrons are.....N

12. Part of the atom that has a negative charge

Down

1. Rhymes with spectacle

2. The first energy level only has..... electrons in it

3. All substances are made from tiny particles called.....

4. The second energy level can have upto..... electrons in it

6. The..... table shows all the elements

8. That part of the atom that has a positive charge

10. The number is the number of protons in an element
