

Name: _____

Date: _____

Banking: When recording your answers do not use the dollar sign and the decimal points and negative signs must be used in one of the spaces.

Across

- 3. I just got paid \$195.90 for this week. I had to put \$50.00 into savings and pay my cell phone bill of \$153.49 since I forgot last month. I went to the ATM machine to get some cash and they said I had no money. What is my balance?
- 4. My bank charges \$0.25 for all tranactions including deposits up to 10 transactions. After ten transactions it charges \$2.50 for each transaction. If I made 16 transactions how much would I be charged by my bank?
- 7. My balance was \$351.88 and returned a pair of shoes for 49.95. My new balance is
- 8. If I took my balance from 3 down and wanted to buy a \$50.00 I-tunes gift card, could I buy it and what would be my balance?
- 9. My checking balance is \$341.90. Using my debit card, I took \$40.00 out of the ATM twice and bought lunch for \$12.95 and transfered \$25.00 into savings. What is my balance now?

- 10. At the end of the month I had \$232.45. I went to the ATM machine 6 times and withdrew \$160.00 total. I then found out I can only use the ATM machine a maximum of 4 time in one month or get charged \$1.25 for any times after that. What was my balance at the end of the month.

Down

- 1. My checking balance was overdrawn by \$22.00 and the bank overdraft was \$25.00. How much money do I have to put in the bank to have a zero balance?
- 2. Had \$200.00 and wrote a check for \$87.65. What is my new balance?
- 5. Transfered \$55.00 of my savings into my checking account that was overdrawn by \$2.95.
- 6. From my balance in 2 Across I wrote a check for \$23.98 and took \$40.00 cash from the ATM machine. My new balance is...
