# Bases of Eco and Epigenetics

## Across

2. In chromatin structure proteins are present called?
5. Epigenetic changes as important contributors to?
7. The field of epigenetics is primed for?
8. The epigenome is vulnerable to environmental factors during embryogenesis because the DNA synthesis rate is?
9. Epigenetics is the study of ?

## Word Bank

Histone modifications  
BPA  
Translation  
Epigenetic knowledge

Liner DNA  
High  
Cancers

DNA methylation  
Nucleosomes  
One corbon

10. Epigenetics is primed for translation of ?

## Down

1. Epigenetic is the patterns of ?
3. Chromatin is anucleoprotein complex that package?
4. The DNA methylation is component of?
6. A high production volume is ?
