

Name: _____

Date: _____

Bio 110 Nervous System

Across

3. What is the chemical released from the axon terminal?
7. What are the projections from the cell body that receive neurotransmitters from adjacent neurons?
8. What is another name for the motor nerve?
9. What are the cells of the nervous system that are excitable?
10. What is another name for the sensory nerve?

Down

1. What is the long extension from the cell body that sends a message on to other neurons?
2. What is the location of nucleus and the metabolic center of the neuron?
4. What is the gap between a neuron's axonal terminal & the next neuron's dendrite?
5. What is a nerve whose axons are transmitting impulses from the brain or spinal cord?
6. What is the name of a nerve whose axons are transmitting impulses to the brain or spinal cord?
