# Bio Crossword- Emnet

## Across

2. Biological enzyme  
4. Two amino acids combined together  
5. A monosaccharide of carbohydrate  
7. High energy storage  
12. Building block of nucleic acid  
13. Single stranded nucleic acid  
14. Milk sugar

15. Backbone of organic compounds

17. A lipid that is liquid at room temperature

18. Animal starch

19. Carbohydrate used in plants for structure

20. Reactants, attach to the active site of enzymes

## Down

1. Monomer of carbohydrate

3. Common table sugar, disaccharide

6. Fatty acid with only single bonds

8. Serves as a quick energy source

9. Part of amino acids that make one different from another (R group)

10. Can be bonded to other monomers to make a polymer

11. 2 monomers bonded

16. Double stranded nucleic acid

## Word Bank

Sucrose

Cellulose

Lipid

Protein

nucleotide

Saturated

Monosaccharide

Glucose

Dipeptide

Dimer

Carbohydrates

Catalyst

DNA

Monomer

Lactose

RNA

Carbon

Glycogen

Substrate

Unsaturated
