

Name: _____

Date: _____

Bio Crossword- Emnet

Across

2. Biological enzyme
 4. Two amino acids combined together
 5. A monosaccharide of carbohydrate
 7. High energy storage
 12. Building block of nucleic acid
 13. Single stranded nucleic acid
 14. Milk sugar
 15. Backbone of organic compounds

17. A lipid that is liquid at room temperature
 18. Animal starch
 19. Carbohydrate used in plants for structure
 20. Reactants, attach to the active site of enzymes

Down

1. Monomer of carbohydrate
 3. Common table sugar, disaccharide

6. Fatty acid with only single bonds
 8. Serves as a quick energy source
 9. Part of amino acids that make one different from another (R group)
 10. Can be bonded to other monomers to make a polymer
 11. 2 monomers bonded
 16. Double stranded nucleic acid

Word Bank

Dimer	Unsaturated	Glycogen	Lactose	Catalyst
RNA	Carbon	Carbohydrates	Dipeptide	Sucrose
Monomer	DNA	Lipid	Substrate	Protein
Monosaccharide	Saturated	Cellulose	nucleotide	Glucose
