# Biology

## Across

- 2. Makes ribosomes
- 3. Disinfects for the cell
- 5. Green storage area
- 13. Structural support for cell
- 14. No nucleus no organelles
- 15. Power house of the cell (makes energy)

16. Long whip like tail for movement

17. Regulates what goes in and out

## Down

- 1. Transport system
- 4. Storage and package area
- 6. Jelly like substance inside cell
- 7. Smallest unit of life

8. Makes proteins

9. Has nucleus and organelles

10. Storage area for food or water

11. Brain of cell

12. Short hairs for movement
