

Biology 211

Across

3. sulfhydryl has only what

5. This group has only proteins and lipids

6. The empirical formula is

10. All living things require what

13. This is only in plant cells

14. This type of fat is bad for us

15. This is the movement of water across membranes

16. This type of fat is good for us

17. These bind polysaccharides to protein

18. Phosphate contains only what

Down

1. This describes the organization of living systems

2. This group has only proteins

4. This group has proteins, lipids, carbohydrates, and Nucleic acids

7. If something is polar it is

8. These bind polysaccharides to lipids

9. This group has only Nucleic acids and carbs

11. If something is non polar it is

12. This group has only lipids and Nucleic acids
