

# Biology

## Across

1. group of tissues some functions work together
3. 2 parents, each donate a cell, all are unique
4. an educated guess
14. is short for deoxyribonucleic acid
15. study of life
17. gather background information
19. basic unit of life
21. combined atoms (H<sub>2</sub>O)
22. 1 parent, offspring identical, it's a quick process

23. step by step process of carrying out an experiment

24. process of maintaining balance

## Down

2. WW. oxygen, carbon, nitrogen, hydrogen
5. well tested explanation unifies observations
6. actually exists, reality, truth, has happened
7. a technique in which information is gathered using senses

8. group of cells that work together (muscle tissue)

9. group of organs performing a task (Heart)

10. carrying out a test to determine an outcome

11. C<sub>6</sub>H<sub>12</sub>O<sub>6</sub> = (glucose)

12. facts/practice/scientific method - is a principle of science

13. change overtime

16. info gathered

18. is short for ribonucleic acid

20. generalizes observations/no exceptions found
