

Name: _____

Date: _____

Biology Extra Credit

Across

- 5. what is needed in photosynthesis that is not needed in cellular respiration
- 6. what creates ATP
- 7. where does cellular respiration happen
- 9. how many stages are in cellular respiration

- 10. what type of cells can perform photosynthesis

Down

- 1. what creates sugar
- 2. what is glucose
- 3. where does photosynthesis happen
- 4. what is ATP
- 8. how many stages are in photosynthesis
