

Biology Vocab

Across

7. Slow life-History pattern

8. A large number added to each population.

9. What are examples of Reproduction patterns?

10. Reproduction Patterns

11. Reproductions Patterns

12. Resources that limit the growth of population

Down

1. Slow life-history pattern

2. The maximum size a population can support

3. What is a group of individual of species

4. What part of the graph shows rapid growth?

5. What causes population growth?

6. Slow life-history pattern

Word Bank

Short life span

Mature slowly

Population

Reproduce rapidly

Small in size

Births

Exponential

Live long lives

Carrying capacity

S-curve

Stay at carrying capacity

Limiting factors
