

Name: _____ Date: _____ Period: _____

Biology Vocabulary- Bingo I5

Across

2. Create short-term energy
7. The study of life
9. Discovered the cell
10. cell takes in nutrients
11. serve as enzymes and structural components
13. When a gene is activated or deactivated
14. responds to chemicals
15. Reduce the change of pH
16. specialized proteins (ends in -ase)

18. used for insulation and protection

19. Converts glucose into ATP energy

20. have the capability to become any type of cell

Down

1. Cell that does have a nucleus

3. Process of converting Carbon Dioxide, Water and Light into Oxygen and Glucose

4. maintaining of an internal environment

5. cell that doesn't have a nucleus

6. tail-like structure (used in locomotion)

8. cells that can be specialized to perform a particular job

12. Hold genetic information

17. assembles proteins during protein synthesis
