

Name: _____

Date: _____

Biomolecule Vocabulary

Across

- 2. Monomer for Proteins
- 7. Monomer for Nucleic Acids
- 8. Monomer of Lipids
- 9. Biomolecules made of Glycerol and Fatty Acid
- 11. The sugar formed when two monosacchrides are joined

Down

- 1. Monomer for Carbohydrates
- 3. Most abundant carbohydrate found in food
- 4. Building blocks of the biomolecules
- 5. Quick source of energy
- 6. Biomolecules that make up DNA and RNA
- 10. Makes your muscles grow
