

Name: _____

Date: _____

Biomolecules

Across

2. any of the class of sugar
 4. a molecule that is produced by a living organism
 5. a simple organic compound containing both a carboxy
 6. any of a class of organic compound that are fatty acid
 11. is a hydrophobic or water fearing
 12. a self-replicating materials which is present in nearly all living organism
 14. primarily made of carbon

15. a substance that has a molecular structure
 16. a simple organic compound containing both a carboxy
 17. having electrical or magnetic polarity
 18. a complex organic substances present in living cells
 19. large organic molecule
 20. Molecule consist of number sugar

Down

1. a substances produced by a living organism

3. a lipid containing a phosphate group in its molecule
 7. any of large group of organic compound
 8. a compound consisting of a nucleotide linked to a phosphate group
 9. a molecule that can be bonded to identical to form a polymer
 10. A nature oily or greasy substance occurring in animal bodies
 13. is any of a class of nitrogenous organic compound that consist of large molecule
