# Body Parts Of A Dog

## Across

- 3. the hind part of the body of a mammal or the lower back of a bird
- 6. the part of a person's arm extending from the elbow to the wrist or the fingertips
- 8. any of the five digits at the end of the human foot
- 12. The area at which the back joins the neck
- 15. a framework of bone or cartilage enclosing the brain of a vertebrate; the skeleton of a person's or animal's head.
- 16. a small open boat with a fiberglass hull and inflatable rubber sides
- 17. the joint in a quadruped's hind leg between the knee and the fetlock, the angle of which points backward

- 18. the rear surface of the human body from the shoulders to the hips
- 20. the part of the human leg between the hip and the knee

## Down

- 1. a projection of the pelvis and upper thigh bone on each side of the body in human beings and quadrupeds.
- 2. That portion of face in front of the eyes, commonly called a nose
- 4. Indentation between the eyes where skull and nasal bone meet
- 5. the joint between the forearm and the upper arm
- 7. the upper joint of the human arm and the part of the body between this and the neck
- 9. the thick hanging lips of a bloodhound or similar dog.

- 10. Part of the foot of the foreleg, between wrist and toes
- 11. That portion of face below the eye, behind the muzzle and in front of the ear.
- 13. the hindmost part of an animal, especially when prolonged beyond the rest of the body, such as the flexible extension of the backbone in a vertebrate, the feathers at the hind end of a bird, or a terminal appendage in an insect
- 14. the side of a person's or animal's body between the ribs and the hip.
- 19. the front surface of a person's or animal's body between the neck and the abdomen
