

Name: _____ Date: _____ Period: _____

C1L3 Photosynthesis

Across

- 7. simple sugar that is an important energy source in living organisms and is a component of many carbohydrates
- 8. kinetic energy carried by electromagnetic radiation
- 9. a property of objects which can be transferred to other objects
- 10. reflected from a metal surface with angle of incidence equal to the angle of reflection

Down

- 1. produced by burning carbon and organic compounds and by respiration
- 2. In Chloroplasts
- 3. a plastid that contains chlorophyll and in which photosynthesis takes place
- 4. ray of light strikes a surface
- 5. a colorless and odorless reactive gas
- 6. H₂O
