# Car Safety Q3 2020 SIP Activity

## Across

6. Perform this action safely by looking and using a signal.  
 7. An area where traffic fines double.  
 8. These are deployed when there is a car collision.  
 10. This makes a "click" sound when it is properly fastened.  
 11. This is bright and can be helpful in roadside emergencies.

12. We do pre-use \_\_\_\_\_ on our fork trucks and other mobile equipment in the plant where we check for issues before using the vehicles. It is a good idea to do this for your own car as well.

## Down

1. If your car battery dies, you might need \_\_\_\_\_ to and a friend to start it up again.  
 2. 1. It is a good idea to keep a \_\_\_\_\_ kit in the car with items like gauze, tape, bandages, antibiotic ointment, aspirin, gloves, scissors, hydrocortisone, tweezers, and an instant cold compress.

3. If it takes longer than usual to stop your vehicle, you should have your \_\_\_\_\_ checked.  
 4. Something to keep you warm if your car gets stuck in snow.  
 5. A pace by which you must abide. (For our plant, that is 10mph!)  
 9. Whether crossing the street or crossing a fork truck aisle, you should always look \_\_\_\_\_ before crossing.
