

Name: _____

Date: _____

Cell Division

Across

5. becoming a distinct cell type
 9. growth, division preparation, division
 11. an in between period of growth
 12. genetic info bundled as DNA
 15. programmed cell death
 16. protein that regulates the cell cycle
 17. uncontrolled cell growth

19. can develop into certain types of cells
 21. can develop into any type
 22. organelle where spindle fibers form in cell division
Down
 1. limited to replacing specific cell types
 2. mass of cells
 3. stimulates cell growth and division
 4. where chromatids attach

6. developmental stage of an organism
 7. hollow ball of cells
 8. division of cells by dividing cytoplasm
 10. DNA and histones
 13. unspecialized cells
 14. condensed duplicated chromosomes
 18. to control or direct
 20. division of the cell nucleus
