

Name: _____

Date: _____

Cell Unit

Across

- 4. a single-celled organism that does not have a nucleus or membrane-bound organelles
- 6. a molecule that carries information in cells and is made up of smaller molecules called nucleotides
- 8. a rigid structure that surrounds the cell membrane
- 9. any living thing
- 10. different types of atoms

Down

- 1. a small body in a cell's cytoplasm that is specialized to perform a specific function
- 2. a group of atoms that are held together by chemical bonds
- 3. a fat molecule or a molecule that has similar properties
- 5. an organism made up of cells that contains their DNA in a nucleus
- 7. is the smallest functional and structural unit of all living organisms
