

Name: _____

Date: _____

Cell organelle

Across

3. Jelly-like material that organelles are found in

5. Series of canals used to transport materials in the cell

10. Contains DNA and is found in the nucleus

12. Controls the movement of materials in and out of the cell

13. Packages useful materials

Down

1. Allows plants to make their own food

2. Controls all cell activities

4. Rigid structure which provides support and protection in plants

6. Manufacturers ribosomes

7. Provides energy for the cells

8. Contain enzymes which break down food and digest wastes and worn out cell parts

9. Manufacturers protein for the cell to use

11. Holds water, food and waste materials
