

Name: _____

Date: _____

Cells and Organelles

Across

2. Control center; contains nucleolus
6. Jelly-like; found in membrane; protects organelles
8. Makes proteins
10. Processes proteins

11. Transports proteins

12. Where is DNA found?

13. Makes ribosomes

Down

1. Digests worn out organelles

3. Powerhouse of the cell

4. Determines what goes in and out the cell

5. Uses sunlight to make sugar for plant

7. Storage and waste removal

9. Supports plant cells
