

Cellular Energy

Across

- 5. Process of reactions in which pyruvate is broken down into the carbon dioxide
- 6. Stacks of one or more thylakoids
- 7. The process of glucose being broken down in cytoplasm.
- 9. Process of cellular energy that involves oxygen

- 10. The fluid-filled space that is outside the granum
- 11. The study of the flow and the transformation of energy in the universe
- 12. What is the second phase of photosynthesis

Down

- 1. Process in which cellular respiration does not involve oxygen

- 2. Occurs in the cytoplasm and regenerates the cell's supply
- 3. What are the flattened, sacklike membranes that are arranged in stacks
- 4. The anabolic pathway in which light energy from the sun is converted to chemical energy.
- 8. Light-absorbing colored molecules
