

Chapter 10 Mr Jewell By: Tony Dunlap

Across

- 2. an integrated software package for handling, processing, and analyzing geographical data and computer database in which every item of information is tied to a precise geographic location
- 4. Fundamental facilities and systems serving a country, city, or area, as transportation and communication systems, power plants, and schools
- 11. An increase in the percentage and in the number of people living in urban settlements.
- 12. Geographical boundaries placed around a city to limit suburban growth within that city.
- 15. the process of repairing damage caused by humans to the biodiversity and dynamics of natural ecosystems

Down

- 1. The vegetation and manufactured structures that cover land
- 3. Legislation and regulations to limit suburban sprawl and preserve farmland.
- 5. an area of small towns or farms
- 6. a strip of vegetation that connects parks or neighborhoods: often located among rivers, streams, or canals
- 7. Various ways humans use the land such as agricultural, industrial, residential, or recreational
- 8. dividing an area into zones or sections reserved for different purposes such as residence and business and manufacturing etc

- 9. The effort on the part of the city to coordinate, direct and control the type of development taking place, so as to ensure maximum benefits to the populace.
- 10. Development of new housing sites at relatively low density and at locations that are not contiguous to the existing built-up area.
- 13. An area in which the air temperature is generally higher than the temperature of surrounding rural areas.
- 14. A dense core of census tracts, densely settled suburbs, and low-density land that links the dense suburbs with the core
