

Chapter 10 Vocabulary

Across

3. boundary Geographical boundaries placed around a city to limit suburban growth within that city.

5. A dense core of census tracts, densely settled suburbs, and low-density land that links the dense suburbs with the core

8. The effort on the part of the city to coordinate, direct and control the type of development taking place, so as to ensure maximum benefits to the populace.

10. Various ways humans use the land such as agricultural, industrial, residential, or recreational

11. an integrated software package for handling, processing, and analyzing geographical data and computer database in which every item of information is tied to a precise geographic location

13. the process of repairing damage caused by humans to the biodiversity and dynamics of natural ecosystems

15. a strip of vegetation that connects parks or neighborhoods: often located among rivers, streams, or canals

Down

1. an area of small towns or farms

2. Legislation and regulations to limit suburban sprawl and preserve farmland.

4. An increase in the percentage and in the number of people living in urban settlements.

6. The vegetation and manufactured structures that cover land

7. An area in which the air temperature is generally higher than the temperature of surrounding rural areas.

9. dividing an area into zones or sections reserved for different purposes such as residence and business and manufacturing etc

12. Fundamental facilities and systems serving a country, city, or area, as transportation and communication systems, power plants, and schools

14. Development of new housing sites at relatively low density and at locations that are not contiguous to the existing built-up area.
