

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Chapter 11: Amino Acids and Peptides

## Across

6. another physical means of denaturation  
 8. If the \_\_\_\_\_ balance changes too much it can cause coma or death  
 9. One protein that is a good foaming agent is \_\_\_\_\_  
 11. If \_\_\_\_\_ contain too little fluid, they will die

12. \_\_\_\_\_ - \_\_\_\_\_ are proteins designed to attack foreign substances that enter the body

## Down

1. \_\_\_\_\_ involves pushing the mixture through openings that shape the product  
 2. elastic protein strand that gives bread dough its structure

3. \_\_\_\_\_ is a protein in connective tissue  
 4. A \_\_\_\_\_ is an alcohol that has been dehydrogenated  
 5. Each type of \_\_\_\_\_ has its own pH range  
 7. In a \_\_\_\_\_, gas is suspended in a liquid or a semisolid  
 10. Example of a mechanical action
