Chapter 15: Populations, Cities, and the Environment

Across

- 6.** Leaving one country to live permanently in another.
- 8.** A measure of the decrease in population due to deaths.
- 10.** Centers of employment and commerce that began as suburban commuter communities.
- 11.** A social situation that emphasizes individualism over collective or group identities.

Down

- 1.** High birth and death rates to low birth and death rates resulting in a stabilized population.

- 2.** Movement of increasing numbers of people from rural areas to cities.
- 3.** The idea that a rapidly increasing population will overuse natural resources, and lead to a public health disaster.
- 4.** Rapid decrease in birth rates to below replacement levels.
- 5.** A measure of population growth through reproduction.
- 7.** A group of densely populated metropolises that combine to form a huge urban complex.
- 9.** The study of the size, composition, distribution and changes in human population.
