

Chapter 15 Vocabulary-Energy

Across

5. energy associated with electric charges

8. the ability to do work

10. energy stored in the atomic nuclei

13. increases when an object is raised to a higher level

14. sunlight that is converted into useable energy

15. energy resources that CAN NOT be replaced quickly are

Down

1. energy obtained from water

2. changing energy from one form to another

3. the potential energy of an object that is stretched

4. energy that travels through space

6. energy that is stored

7. energy resources that CAN be replaced quickly

9. the energy of motion

11. energy stored in chemical bonds

12. energy from once-living organisms
