Chapter 20

Across

3. abnormal drowsiness or stupor; a condition of indifference

6. illusion of movement; sensation as if the external world were revolving around the patient or as if the patient were revolving in space

7. bodily injuries caused by physical means with disruption of the normal continuity of structures

9. subjective sensation or motor phenomenon that precedes and marks the onset of a paroxysmal attack

11. artificial substitution of heart and lung action as indicated for cardiac arrest or apparent sudden death resulting from electric shock, drowning, respiratory arrest, and other causes

14. forcible expulsion of the contents of the stomach through the mouth

15. device used for application of external electrical shock to restore normal cardiac rhythm and rate

16. vascular reaction, usually transient, involving the upper dermis, representing localized edema caused by dilation and increased permeability of the capillaries and marked by the development of wheals; also called hives

17. unexpected or sudden occasion; an urgent or pressing need

18. abnormally diminished concentration of glucose in the blood

19. sudden stoppage of cardiac output and effective circulation

20. condition of profound hemodynamic and metabolic disturbance characterized by failure of the circulatory system to maintain adequate perfusion of vital organs

21. nosebleed; hemorrhage from the nose

Down

1. condition with sudden onset caused by acute vascular lesions of the brain; often followed by permanent neurologic damage

2. disorganized cardiac rhythm

4. separation of the layers of a surgical wound; may be partial, superficial only, or complete, with disruption of all layers

5. escape of blood from the vessels; bleeding

8. abnormally increased concentration of glucose in the blood

10. temporary suspension of unconscious as a result of generalized cerebral ischemia; faint or swoon

12. paleness; absence of skin coloration

13. unpleasant sensation, vaguely referred to the epigastrium and abdomen and often culminating in vomiting
