

Name: _____

Date: _____

Chapter 20

Across

2. Nosebleed
 3. Disorganized cardiac rhythm
 4. Abnormally diminished concentration of glucose in the blood
 5. Artificial substitution of heart & lung action as indicated for cardiac arrest
 10. Hives; vascular reaction
 13. Paleness
 14. Illusion of movement
 15. Device used for application of external electrical shock to restore normal cardiac rhythm & rate
 16. Escape of blood from vessels

18. Sudden onset caused by acute vascular lesions of the brain
 20. Separation of the layers of surgical wound

21. Abnormal drowsiness

Down

1. Abnormally increased concentration of glucose in the blood
 6. Sudden stoppage of cardiac output & effective circulation
 7. Subjective sensation such as an epileptic attack
 8. Unpleasant sensation
 9. Forcible expulsion of contents from the stomach to mouth

11. Temporary suspension of consciousness as a result of generalized cerebral ischemia

12. Bodily injuries caused by physical means

17. Pressing need

19. Condition of profound hemodynamic & metabolic disturbance characterized by failure of the circulatory system to maintain adequate perfusion of vital organs

Word Bank

AEDs
 Cardiac Arrest
 Syncope
 Epistaxis
 Emergency
 Aura

Wounds
 CPR
 Stroke
 Shock
 Nausea

Wound Dehiscence
 Vertigo
 Pallor
 Hemorrhage
 Urticaria

Lethargy
 Hypoglycemia
 Ventricular Fibrillation
 Vomiting
 Hyperglycemia
