

Name: _____ Date: _____ Period: _____

Chapter 3 Portfolio Hydrosphere and Biosphere

Across

7. Consists of the parts of the atmosphere, hydrosphere, and geosphere, where life exists
8. The interaction among the four planetary or spheres
9. Consists of a land sphere, an air sphere, a water sphere and a life sphere
10. The lower layer stratosphere contains a high concentration of Ozone

Down

1. The layer where weather occurs on also, it is the only layer in which terrestrial organisms can survive.
2. An envelope of gases surrounding the planet
3. Includes all of the gaseous, liquid, and solid water or near Earth's surface
4. The most atmospheric layer above the troposphere
5. Consists of the Earth's core, mantle, and thin outer crust
6. In the Geosphere _____ includes nonrenewable fossil fuels coal, oil, natural gas and mineral resources.

Word Bank

Geosphere
Atmosphere
Earth Spheres
Ozone Layer

Troposphere
Hydrosphere
Crust

Earth life-support system
Stratosphere
Biosphere
